

# NASSIMA BY ACICO YACHTS

Our desire: convert your vision into a yacht of your dreams

The dream boats built by Acico Yachts range from exquisite superyachts to modern classic oceangoing sailing yachts. They are the essence of true quality, fine workmanship and breathtaking design.

## Nassima

Acico's Dutch craftsmanship, together with that of its leading subcontractors, shapes a range of components to perfection in the 49-metre Nassima. A platform of freedom customised to the highest degree, Nassima provides large areas of shaded and open deck space, including bars, alfresco dining and an extraordinary array of toys & tenders.

## A true voyager

Nassima's range, hull shape and layout make her a true long-distance cruiser within the fifty-metre yacht class. The luxury areas were built by LIST of Austria – a perfect match for the in-house Dutch craftsmanship of Acico Yachts. Her timeless and serene interior styling is in balance with her exterior design, giving the ultimate seaborne experience.

Nassima features a master suite located on the bridge deck as well as a full-beam VIP stateroom and four twin guest staterooms on the lower deck. The huge, eye-catching seawater aquarium, which reflects the waters on which Nassima sails, can be enjoyed from the salon and the main deck alike. Another fine feature is the location of the master suite aft on the upper deck, where the sky lounge would usually be found, instead of the common position forward on the main deck. This space features the best views, enhanced by large windows to both sides and aft, and the large sliding doors allow access to a private aft deck. Curtains on either side can be closed to maintain privacy on the aft deck from guests and crew circulating from the main deck to the sun deck.

#### Design

The exterior design and naval architecture came from the drawing boards of Olivier F. van Meer, who succeeded in creating a contemporary classic look while avoiding hard edges in favour of curving lines throughout the boat. The 49-metre length, combined with a gross tonnage of 473 GT, results in a long and slender profile, with a bulbous bow to reduce the resistance. The off-white superstructure sits atop a hull in very light

grey-blue, a nuance which shifts with the angle of the sun. Interior designer Maja von Dewitz from the Swiss design bureau vdp Studio, created a comfortable modern look using a combination of wood, white panelling and gold-leaf accents.

#### MY50 Nassima

Length over all	49.18 m.
Beam over all	8.79 m.
Gross tonnage	493 GT
Draught	2.55 m.
Cruising speed	14 knots
Top speed	19 knots
Range	Over 5.000 nautical miles
Passengers	Up to twelve
Naval Architect	Olivier F. van Meer Design
Interior Design	Maja von Dewitz, vdp Studio

ACICO YACHTS

# PRESENTING THE AY74 MOTOR YACHT

On every voyage, another experience

Acico builds yachts of the highest standard which embody freedom and relaxation and can be taken out on any sea to generate unforgettable memories and emotions. Whether future owners dream of zebrano strips, oak floors and leather details or the best way to design and decorate rooms in their own style, Acico is an open-minded partner who looks forward to transforming their vision to reality. Acico Yachts aims to capture each owner's personal vision and turn it into reality by merging the dream with the fine details required for a truly outstanding yacht.

Informing someone of the AY74's great sea keeping, fine Dutch craftsmanship, powerful engines, and quality equipment during their first thrilling experience onboard would merely be distracting. The interior of this fabulous yacht,

designed in earthy tones and featuring leather sofas, makes for a timeless appearance. Big windows throughout bring ample lighting into the wheelhouse and the saloon.

**The following is included:**

- 60 m<sup>2</sup> of teak deck, including the flybridge with its lounge area.
- Lounge and wheel house, two side doors and a large automatic aft sliding door, or customised interior.
- Owner's cabin in the bow with a separate bath room, dinette, galley, wash and laundry room, two guest cabins and a bath, plus a crew cabin with separate bathroom. Engine room with two 800 hp Volvo Penta Diesel engines, a generator, a water maker, a work bench and everything necessary to satisfy any technical requirements.

**AY74**

Length over all	23.0 m.
Length water line	21.8 m.
Beam over all	6.2 m.
Draft fully loaded	1.7 m.
CE category	A
Hull material	Aluminum
Top speed	23.5 knots
Cruising speed	14-16 knots
Concept Design	Boris Levyant
Exterior Design,	
Naval Architecture	Olivier van Meer Design
